

Environmental Policy

Everlight Chemical acknowledges the importance of natural resource conservation and sustainable development. In response to environmental initiatives such as Task Force on Climate-related Financial Disclosures, Net Zero Emissions, Renewable Energy, Green Chemistry, and Circular Economy, our Environmental Policy is:

Mitigate Environmental Risks, Towards Ecological Sustainability.

We promise to:

1. Establish ISO 14001 Environmental Management System, and implement continuous improvements.
2. Consult with stakeholders on environmental issues of concern on a regular basis.
3. Formulate, monitor, and achieve corporate environmental performance goals.
4. Disclose environmental information periodically in compliance with relevant local and international regulations.
