

Business Continuity Management Policy

Everlight Chemical realizes that Business Continuity Management (BCM) is part of Corporate Risk Management System. To preserve stakeholders' interests and corporate reputation, We define Everlight Chemical Business Continuity Management Policy as:

**Fulfilling Corporate Commitments
Ensuring Business Sustainability**

And adopt the following strategies:

1. Establishing and continuously improving ISO 22301 Business Continuity Management System.
2. Ensuring cash flow balance and financial sustainability.
3. Uninterrupted supply of critical products.
4. Enhancing Emergency Preparedness.
5. Minimizing potential business risks.
